

This opportunity is subject to the approval of funding by the Strategic Business Growth Programme which is part funded by the European Regional Development Fund.

General Project Specification – Deepen Existing Pit

Deepen the Existing Pit

Existing Pit Size – 12.4m x 9.2m x 1.5m deep

New Pit Size – 13.5m x 9.2m x 3.0m deep

All Permanent Works

The pit is to be constructed in two sections with a temporary concrete wall constructed in between the new deeper section and the existing to stop the loss of material from underneath the existing pit base

Temporary Works

- Supply and fix formwork
- Cast new wall the width of the pit x 1.5m high to retain ground
- Break out this wall in phase 2 to allow construction of deeper pit
- Dispose of all arisings to off site tip
